

A Better Way to Create, Edit
and View DWG Files

How is your current 2D CAD product affecting your business and success?

- Are you frustrated with the high cost of your 2D CAD licenses and upgrades?
- Do you have concerns about 2D compliance?
- Are you getting little or no value from your 2D CAD investments?
- Is your company considering migrating to Windows® 7 or 8? (If yes, are you confronted with compatibility issues with your current 2D CAD product?)
- Do you depend on reliable DWG compatibility for legacy and/or current projects?
- Have you developed LISP routines for your current 2D CAD program?
- Would your company benefit from an easy-to-deploy and manage network license?
- If you can save 50-80%, are you willing to seriously consider a new 2D system?

If you answered yes to any of the questions above,
then you need DraftSight!
